

## Heart Math

### Materials:

- red construction paper (5 sheets)
- black marker
- pom poms/stickers (55)

1. Draw 10 hearts on red construction paper; large enough to write numbers on one half and place stickers/pompoms on other half.
2. Cut out the 10 hearts and write numbers 1-10 on them; leaving enough space to place pompoms or stickers inside hearts.
3. Starting with the number one, begin placing stickers/pompoms on the other half of the heart until you get to 10!

Enjoy!
