

CVC Matching Activity

Materials Intro: For today's activity, you will need:

- broken hearts template w/cvc words
- scissors
- post it notes
- marker

Note: If you don't want to try new words, you can write CVC words on post it notes for them to use! **To make it more challenging**, cut out each individual letter to create the words.

1. Cut out hearts from the template (*cutting the first letter by itself and leaving two letters on the other half of the heart*)
2. Mix up the heart halves and have your child begin sorting each of the word families their own pile (-at, -am, -ap, -an)
3. Using the single letter halves, have them begin creating CVC words using trial and error.
4. Once they have built a CVC word, have them sound out each letter and say the word at the end (*i.e., c-a-t....CAT*)

Enjoy! 😊
